## Suits or Overcoats

Some men hesitate to wear and some men are skeptical as to the wearing qualities of our \$10 Suits.

### WHY?

Simply because they don't know the way we operate our business. We buy nothing but the best in only pure wool materials made in the U. S. A. We buy in huge quantities. We buy early. We buy for cash only. We shrink the goods in our own plant. We manufacture the garments ourselves. We sell at one price and one price only, season in and out. We don't charge a fancy price at the beginning of the season and cut prices at the end, so we have no losses on that score.

Selling only for cash we lose nothing on bad debts. These are the reasons why we can sell you for \$10 a Suit or Overcoat equally as good as any garment usually sold at \$15 or \$20.

But the proof of the pudding is in the eating, come in and see the garments. Examine the materials, the patterns, the stylish cut and the excellent tailoring, then judge for yourself.

## NEW INVENTIONS IN GAS-LIGHTING WEEK

Welsbach Company Shows Its Latest Models at All Gas Offices in U. S. This Week.

This is "National gas-lighting week." In every city in the United States, gas companies have set aside the days from September 26 to October 2 to inform the public by showroom displays and other means of demonstration, of certain wonderful advances which have recently been made in gas lighting—discoveries which bid fair to revolutionize all lighting with the exception of that obtained from the great solar body.

It is natural, almost inevitable, that such discoveries should originate in the laboratories of the Welsbach Company, which first brought out the incandescent gas lighting system. This new method of lighting, developed and perfected by the Welsbach Company, is based on the kinetic principle of burner construction and is considered by experts to be the most important discovery in the lighting field since Dr. Carl Auer von Welsbach discovered the incandescent gas mantle. The Panama-Pacific International Exposition awarded the grand prize—highest honor—to the Welsbach Company for its two new lights constructed on the kinetic principle—the "C. E. Z." gas light and the Welsbach kinetic gas bowl.

The "C. E. Z." light is in itself perhaps the most truly wonderful lighting discovery of recent years. During lighting week it is receiving its first national introduction to the public.

It is not only a wonder in mechanical simplicity, volume and quality of light; but it represents a great stride forward in the constant endeavor of scientists to reduce the cost of maintenance.

The contrast between the simple inexpensive "C. E. Z." light and the luxurious artistic Welsbach kinetic lighting bowls illustrates graphically the freedom of design and adaptability possible with the kinetic principle of burner construction. The types of fixtures may, and do, vary widely, but they are alike in radiating an abundance of eye-comforting light which amazes and delights all observers. They are alike, too, in their attractive appearance, extreme convenience of operation, and marked economy. And they have done away with fixture and ceiling discoloration, inside glassware, such as chimneys and cylinders, and other fixtures which have in the past made some methods of lighting rather complicated.

Lighting week is meant as a service to all users of gas, freely offered by the gas company as a convenient and interesting method of informing the public at large of the marked progress in all fields of modern gas lighting.

It will pay every user of light—and does not that mean every individual?—to devote some time during this week to the interesting displays and demonstrations with which the gas company is celebrating first national gas-lighting week.

## A Proclamation

The Grand Army of the Republic of today, the remnant of that laurel-crowned army which returned victorious from the civil war battlefields, having honored Washington by selecting it as the site for its forty-ninth annual encampment and fiftieth anniversary of the grand review, the citizens' committee, in the name of the organization which extended the invitation, exhorts the people of the Nation's Capital to throw open their homes and their hearts to our distinguished visitors.

There is nothing too good for the G. A. R. The citizens' committee has set the stage for the encampment, and is ready to surrender the Capital to the saviors of the nation. The gates are open, and the thrice-welcome veterans are pouring through. The keys of the city are theirs, and the citizens' committee rests confident in the belief that the people of Washington will join with it in making this the most successful, the most pleasant, comfortable, and memorable in the history of the G. A. R.

THE CITIZENS' COMMITTEE.

Washington, Sept. 25. William F. Gude, Chairman.
